

Questions & Answers: Fireworks Display Services - 2024

1. Can you tell me on the attached map, is the center of the red circle accurately reflected as the actual launch / staging site? (correct location will help with show design)

Response: Attached map is representative of the area and what we use. The setup is approved every year by Fire Prevention, Council, etc.

2. How long has the display typically lasted?

Response: Usually 20-25 minutes.

3. Does the fireworks truck have direct access to the fireworks launch staging area?

Response: Yes

4. There is no mention of permits. Can you confirm the Township applies for and receives their own as well as, pay for any associated permit fees.

Response: A resolution is passed by the council along with the townships Fire permit. It is no cost

5. Can you confirm last year's final fireworks budget.

Response: \$28,000

6. Can you tell us the name of the fireworks vendor who provided these services last year?

Response: International Fireworks from Douglassville, Pa

7. If the event rains out and is rescheduled to the next evening, does the Township provide or pay for rescheduling fees to cover additional vendor costs?

Response: If there is a rain out we use the next day, July 5th. We do not pay anything extra. The bidder should consider that possibility and cost when they prepare their package.

8. Is the football field turf or grass?

Response: It is artificial turf. The entire field is soaked prior to the start of fireworks as a precaution

9. Was last year's bid lower by the vendor choice ie. low bid or, did the Township allot \$2K more for this year's event?

Response: Pricing is set by the municipality. Last year was \$28,000. This year's price is set at \$30,000
